BACLOFEN FTW. Because it is useful for life. In general allowing one to very easily achieve any feat at the case of a encountered 'problem' requiring solving, the incredibly useful when wishing to accomplish impossible tasks, it

To visit Egypt although Egypt is no longer Egypt but that I will find Atlantis and if you so wish, any body is welcomed to come along;
This is that the star system which they are now inhabiting a planet in orbit of, I've known for a well long enough time, only recorded in scientific inquiry by a codename.

And that the language which I'd invented at a quite youthful age of perhaps early twenty-something years of age(1), I would use to reproduce in exact equivalency to what I'd once managed to cause to occur that was that it was a
though which I'd had, which caused universally recognised and felt, wholly, completely and instantaneously. Happiness, Passionate joyousness, and also understanding in a cognitively reforming nature,

Other things to write about.

How I'd set myself up, I suppose, well- yes. Very suitably from a early enough time in through my life. Sane, accurate, logical and true, realisable just by living in the only way capable. Just by making obvious, and grounded, cognitive perceptive identifications regarding whatever it was I was developing some conception on. Given my extent of knowledgeably, what it stood at during that time, depending on the amount of study I had undertaken during by, age? that period of .
Since becoming a person.

Society, or the operation of the public society, overall.

Which I will remember as I never forget anything, nothing is ever forgotten without severe neurodegeration in the regions of the brain involved most in mnesitic [memory], and storing of them too. involved within directly, or as a neurological mediator for this cognitive, capability.
